Java Full Stack Development

08/2023 - 10/2023

Key Learning Points

▫ Java programming | HTML, CSS, JavaScript | Spring Framework | Database management Front-end frameworks (Angular, React) | Version control systems

## CERTIFICATES

Python(basic)

<https://www.hackerrank.com/certificates/a70da742561b>

Certificate of achievement - Best class representative

SIH-2022(Grand finale)

## PROJECTS

Smart projector (05/2022 - 08/2022)

▫ A group project on "Lowest Cost Smart Board" was selected by SIH 2022. Here I created a user-friendly interface for interacting with the projector.

Personal Portfolio (08/2023)

Credit card fraud detection (04/2023 - 07/2023)

▫ It's a group project. In this project I had Collected Data and Preprocessed. Divided the dataset to train the model, validation, and testing sets. Used the training data to train the model so that the model can recognize whether the given card is fraud or not.

## ACHIEVEMENTS

Smart India hackathon SIH-2022 - Grand finale

Working as core team member in Ethical hacking club
